IN THIS ISSUE

Korean volunteers at KMUTNB

Please tell us what your name is and where are you from?

Mr. Changmin Oh, Myongji University: I am from Korea and I am in charge of Korean class.

Mr. Taeha Lee, Korea Aerospace University: Hi, my name is Teesha Lee and I am from Korea

Ms. Jieun Oh, Dong-A University: My name is Jieun Oh and I come from Korea.

Mr. Junic Kim, University of Manchester: My name is Junic Kim, I come from Korea.

Is this your first time in Thailand?

Mr. Changmin Oh: Yes, me and Oh Jieun are here for first time, Thailand is really hot, hotter than Korea, temperature can reach over 40 degrees so I always sweat, but except that it is really great.

Mr. Taeha Lee: It is my second time. I have been here 7 years ago for traveling and had lot of fun.

Ms. Jieun Oh: It is my first time.

Mr. Junic Kim: I have visited Thailand several times, I think its 4th or 5th time before visited here on business, because Thailand was important market for company that I worked for.

How did you apply to do the volunteer project at KMUTNB?

Mr. Changmin Oh: We were asked if we would like to go to Thailand for volunteer project and as we have experience with IT

field and wanted to volunteer at IT university, we chose this great program at KMUTNB.

Mr. Taeha Lee: Actually our whole team is consisted of family members, my cousin Junic Kim suggested how about to apply to volunteer program.

Ms. Jieun Oh: When I was student I wanted to participate at volunteer program.

Mr. Junic Kim: Our Korean government has several international volunteering programs, so I decided to apply to Thailand, because it is great country and I always wanted to do some work here.

What is your project about and what do teach KMUTNB students during one month volunteer?

Mr. Changmin Oh: Me and Oh Jieun we are teaching at Korean language.

Mr. Taeha Lee: I am in charge to introduce some mobile application programing in here, especially hybrid applications which are very solid for the mobile programing.

Ms. Jieun Oh: I teach Koran language.

Mr. Junic Kim: My major role is to prepare

marketing plan for Faculty of IT, and also support Korean and IT classes.

During July 2013, Korean volunteers conducted for KMUTNB students classes in a specified subjects: video editing techniques such as montage and animation, IT and mobile application programming, marketing strategy plan and Korean language at **Faculty of Information Technology, Navamindra Rajini Building.**

What do you like in Thailand?

Mr. Changmin Oh: I really like food, because it is very cheap especially fired rice and Pad Tai. Beside this taxis are very good compering to Korea which price is expensive, but here they are cheap and comfortable. So food and taxis are the things I mostly like in here.

Mr. Taeha Lee: I love everything in Thailand except one vegetable called Pak Chii added to soups like Tom Yam. I really love Thai people, because Korean are always in hurry and compete with others all the time. While I stay here I always see Thais keep smiling, greeting a lot, and being friendly, they know how to live. If I have chance I want to come back and live in Thailand.

Ms. Jieun Oh: I really like Thai food, my favorite is Pad Thai and Tom Yam. I can eat a bit spicy as Korean cuisine is also hot.

Mr. Junic Kim: Everything, especially really kind people and food, even I can eat spicy, but without Pak Chii.

Will you come back here?

Mr. Changmin Oh: I want to back to Thailand definitely, I did not have chance to travel to Chang Mai or Phuket as we have limited time. I want to try snorkeling and do some water sports.

Mr. Taeha Lee: Sure I would love to back to Thailand again.

Thank you for interview and have a nice day.
