Certificate in Technical Education Program
in Electrics and Electronics
(English Program)

Pre - Engineering Thai - German School Department
College of Industrial Technology
King Mongkut's University of Technology North Bangkok

About

Pre - Engineering Thai - German School Department was a former Thai-German Technical School established in 1959. With a practice-oriented approach, the program has a strong commitment to quality education in engineering and engineering technology. In response to the globalization era where English is an international language of communication, we offer an English pre-engineering program in the field of Electrics and Electronics to prepare our students to become a global engineer.

Qualifications

Graduate of Grade 9 with a minimum GPA of 2.5
