

# Keynote Lectures

## *Prof. Dr. Ing. Natasha Sacks*

- Associate Professor in Materials & Metallurgical Engineering, Wits University, South Africa
- Research Group Leader for the Carbides and Cermets research focus area within the Department of Science and Technology & National Research Foundation Centre of Excellence in Strong Materials
- Editorial Board Member for the International Journal of Refractory Metals and Hard Materials
- Member of the South African Institute of Mining and Metallurgy
- Member of the South African Institute of Tribology

## *Manufacturing of Hardmetals*

&

## *Tribology of Hardmetals*

Sponsored by:

Powder metallurgy research focusing predominantly on cemented tungsten carbide alloys and coatings, from the production processes to failure and recycling of components. Current research themes are: cutting tools, cold spray coatings, recycling of scrap hardmetal, and tribology of alloys and coatings.
