With the rapid advancement of emerging technologies, Businesses today is all about Data and Artificial Intelligence (AI).

But the key question is does your business really need it? Or, how do you start?

Here is an exclusive AI Virtual Symposium invitation specially organised by Singapore Polytechnic (SP).

This symposium will help SMEs and our valued industry partners to demystify pertinent questions on:

- ▶ How to tap on AI technologies to drive digitalisation?
- ▶ How AI can accelerate business innovations?
- ▶ How the adoption of AI can potentially help you in pandemic climates?

We assure you that this symposium is premium. Stay to the end and we will also be providing you with a customised AI Business takeaway.
